Evans Distribution Systems Named Top 100 3PL for 18 Consecutive Years

**MELVINDALE, Mich. July 20, 2020** — Evans Distribution Systems, a third-party logistics provider, has been recognized as a “Top 100 3PL Provider” by *Inbound Logistics* for the 18<sup>th</sup> consecutive year. This recognition is extremely rewarding during a time when many industries have experienced operational disruptions brought on by COVID-19.

“These recent months have been challenging, but thanks to our dedicated employees and the support from our customers we are a stronger company,” says John Evans, President & CEO of Evans Distribution Systems. “Now more than ever, we have a renewed focus on resilience and business continuity. We are investing in our people, quality systems, and innovation so we can continue to grow.”

Evans offers a full spectrum of 3PL services including warehousing, transportation, fulfillment, value added services, staffing and packaging. The company has been operating as an essential business throughout the pandemic.

Evans commitment to innovation and investment in technology makes it stand out as an industry leader. This was highlighted with the implementation of a machine vision automation system earlier this year. The new system utilizes artificial intelligence to track order accuracy, while allowing for skilled workers to be utilized in other stages of the packaging process. Evans also welcomed new quality systems manager to oversee quality in all divisions and lead continuous improvement initiatives.

“We are proud to receive this recognition for our 18<sup>th</sup> year, and we remain optimistic about the future of our company and our industry.”
