**Evans Distribution Systems Welcomes Dan Bartley
As Its Newest Warehouse Operation Manager**

MELVINDALE, Mich. April 12, 2023 — Evans Distribution Systems, a provider of third-party logistics and supply chain solutions, welcomes Dan Bartley, as its newest Warehouse Operations Manager.

In his role, Bartley will oversee operations for the Mt. Elliott facility based in Detroit, Mich. He will be managing office and warehouse staff, processing orders, and ensuring on-time shipments for customers. He will also play an integral role with onboarding new customers in the recently expanded Mt. Elliott facility.

“I first learned about Evans as a customer when I was working with Ryder as a Logistics Manager,” says Bartley. “Over the last 25 years, I worked closely with the people at Evans. I loved the company culture, and some of my best friends are Evans employees. When the opportunity arose, I jumped at the chance to join the team.”

In Bartley’s previous role as a Logistics Manager, he handled the transportation and delivery for Ford service parts. His new role in warehousing operations presents an exciting new avenue for growth. “After working in transportation for so long, it’s interesting to work on the other side of the operation,” says Bartley.

“After working with Dan for years, I am confident he is the best person to bring to the team,” says Justin Archibald, Senior Operations Manager. “His experience and work ethic are critical to shaping an efficient operation at what has become our largest facility.”

The 672,000-square-foot Mt. Elliott facility is a hazardous materials compliant operation and ISO 9001:2015 certified. Visit our [website](#) to learn more about Evans’ eight warehouse facilities.
