- TESTING & CONTAINMENT
- REWORK
- CONTRACT PACKAGING
- CO-PACKING
- LIGHT ASSEMBLY
- SHRINKWRAPPING
- KITTING AND BAGGING
- LABELING
- DISPLAY BUILDING
- STAFFING SERVICES

FOREIGN TRADE ZONE (FTZ)

Evans Distribution Systems has operated a Foreign Trade Zone (FTZ) since 1987. Today we operate more than 1 million square feet of General Purpose FTZ #70 out of four facilities.

A foreign trade zone is a secure area in the U.S. or near a port of entry, where products can be designated as legally outside of U.S. customs territory. Customs duties and excise taxes are due only at the time of transfer from the FTZ for U.S. consumption. If the merchandise never enters the U.S. then no duties or taxes are paid on those items.

Benefits of an FTZ

Many industries such as supply chain, automotive, and general manufacturing use FTZs to gain a competitive advantage. Within these zones, some activities like assembling, manufacturing, and repackaging can be done helping to lower costs for companies. Here are six advantages of operating in an Evans Foreign Trade Zone.

1. Deferral of Duties

Evans' FTZ allows you to defer duties to a later time because your goods have not yet entered the country. It can exempt you from inventory tax and other taxes as well.

2. Relief from Inverted Tariffs

When using our FTZ only the lowest duty needs to be paid. This potentially eliminates the costs associated with importing raw materials because most of the time the tariff on manufactured goods is zero.

3. Elimination of Duties on Waste and Scrap

Most of the time goods are leaving the zone as finished products which helps manufacturers save money on raw materials. Since the product is being produced in the FTZ waste or scrap is not dutiable.
