CONTAINER FREIGHT STATION (CFS)

EVANS DISTRIBUTION SYSTEMS IS AN AUTHORIZED OPERATOR OF A CONTAINER FREIGHT STATION

U.S. Customs and Border Protection's (USCBP) Wayne County (Detroit) Port 3801 Customs Office has authorized Evans Distribution Systems to operate as a Container Freight Station (CFS).

CFS LOCATION

18765 Seaway Drive, Melvindale, MI 48122

HOW SHIPPERS UTILIZE CFS FACILITIES

- Most often, importers, freight forwarders, or customs brokers utilize CFS facilities when CBP orders inspection of an imported container to verify contents, documentation, and labeling requirements, among other items. The CFS is a secured and bonded space where containers can be temporarily stored and unpacked prior to an inspection by a CBP officer.
- Shippers who require manipulation services prior to customs clearance.
