Evans Distribution Systems Earns Top Industry Recognitions

MELVINDALE, Mich. October 12, 2026 — Evans Distribution Systems, a provider of third-party logistics and supply chain solutions, has been recognized as a “Top 100 3PL Provider” and “Top 100 Truck Driver” by Inbound Logistics. Additionally, Evans has been recognized as a “Top Dry Storage Warehousing Firm” by Transportation Topics.

“Earning three different and distinct recognitions from multiple industry publications is a valuable honor that showcases Evans Distribution Systems as a diversified, reliable, and experienced logistics provider," says Dawn Harthun, Vice President of Sales & Marketing at Evans Distribution Systems. "It's evident that our commitment to quality is a company-wide effort."

As a trusted company with a solid foundation of logistics expertise, Evans was eager to take on its latest challenge as an authorized operator of a 50,000-square-foot Container Freight Station (CFS) within its Melvindale facility.

“Every imported container is subject to random inspections by U.S. Customs and Border Protection (CBP),” Harthun explains. “When a container is selected for additional inspection, importers are required to route containers to a secured and bonded facility known as a Container Freight Station to prepare it for inspection by Customs officers.”

With close proximity to Metro Detroit ports and rail yards, Evans is uniquely equipped to handle the increased volume of container inspections outlined in a recent Executive Order focused on protecting national security and the economy through enforcement reform.

“It is a privilege to support CBP's mission to protect our nation's borders by maintaining the highest standards of compliance, security, and operational integrity,” says Patrick Swaney, Vice President of Human Resources at Evans Distribution Systems.

Evans continues to make strides in supporting its customers through logistics expertise and expanded service offerings. The company’s eight warehouse facilities provides nearly 5 million square feet of contract and multi-client storage in Metro Detroit. Evans also operates 2.3 million square feet of Foreign Trade Zone designated and bonded warehouse space.

The Top 100 3PLs are selected on various criteria including services, solutions, technology investments, geographic coverage, and financial stability. View the Top 100 3PL list & the Top 100 Trucker list.

Additionally, the Top Dry Storage Warehousing Firms are selected by the total North American warehouse square footage that is analyzed from capacity and finances. View the complete list here.
